

MONT-REBEI

Forage pea variety created by El Solc

Features

- ✓ Semi-leafless pea with very well-developed leaflets.
- ✓ Dual-purpose pea that can be used in both grain and forage.
- ✓ Presents a high first level to facilitate the harvest of the grain.
- ✓ Excellent crop precursor, thanks to the improvement in soil fertility, structure and texture.
- ✓ Works perfectly in association with triticale, oat or rye for forage use.

TOLERANCE
VERSATILITY
RELIABILITY

Main strengths

- ✓ Formidable tolerance to cold.
- ✓ Dual-purpose.
- ✓ Very adaptable and hardy.
- ✓ Excellent forage production with a high protein content, very appetizing for the herd.
- ✓ Very high grain production in arid and semiarid dryland conditions.
- ✓ Very high resistance to pests and diseases.
