

# VILOT

Grain pea variety created by El Solc

## Features

- ✓ The most precocious pea on the market, perfect for fitting in a second harvest.
- ✓ Pea with excellent resistance to cold.
- ✓ The height of the first level and its strong structure prevent any possible lodging and facilitate reaping.
- ✓ Improves soil fertility and structure.
- ✓ Excellent crop precursor, thanks to the improvement in soil fertility, structure and texture.

**PRECOCIOUSNESS  
IMPROVEMENT  
ROTATION**

## Main strengths

- ✓ Excellent production.
- ✓ Very short cycle, precociousness.
- ✓ Formidable resistance to dehiscence.
- ✓ Nitrogen fixation and structural improvement of the soil.
- ✓ Very good choice for the winter cereal, above all if a second harvest is being considered.
- ✓ Its good structure makes it quite competitive against weeds.
